

Strengthening organisations by looking after your people, assets and operations globally.

RiskMonitor Pro

RiskMonitor Pro is a web-based portal that provides travel, security, medical and geopolitical intelligence, strategic country assessments and 24/7/365 real-time alerts via a single state-of-the-art technology platform. *RiskMonitor Pro* is the tool of choice for any organisation looking to keep track of fast-moving security events and long-term risk trends.

What is *RiskMonitor Pro*?

To ensure *RiskMonitor Pro* is the go-to solution for global security intelligence, our in-house analysts use a multi-source approach, combining intelligence from our comprehensive global networks, cutting-edge social media tools, privileged and proprietary systems and extensive industry reach to deliver actionable and timely information. *RiskMonitor Pro* features include:

- Interactive map of risk levels and alerts
- In-depth risk profiles for over 200 countries/territories, 300 cities and 900 sub-national areas
- Threats and hazards sorted by 25 risk categories
- A 1-5 risk rating system split by 0.25 increments to assess local nuances and trends
- Security alerts delivered 24/7/365 via email, SMS and/or Push Notification
- Daily analysis of key risk events, trends and forecasts around the world
- Security intelligence for travellers before and during a trip

Benefits of *RiskMonitor Pro*

Drill down into provincial detail

We understand that certain regions of the world are more dangerous than others - which is why we continually review our ratings and grade risk across different regions, from a 3.75 on Turkey's Eastern front to a more moderate 3.00 in the West. This enables you to plan journeys with more detail and keep employees out of harm's way wherever they are.

In-depth risk categories

We sort risks across 25 different categories including medical, environmental, political, security and infrastructural hazards. This helps you to drill down into specific risks and make the necessary mitigation plans to ensure business as usual.

Barisal, Bangladesh

Overall Risk **HIGH | 4.00**

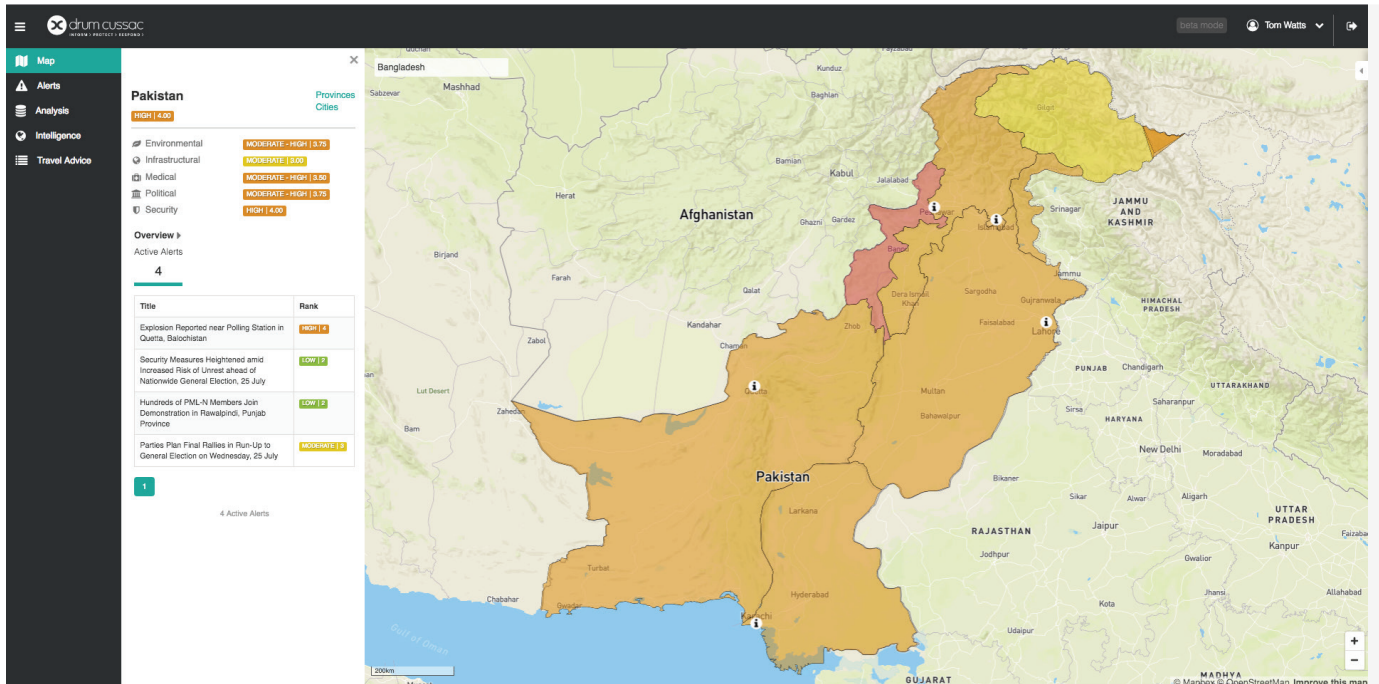

Barisal is particularly prone to election-related violence due to tight political competition that is based on a prevailing coalition of candidates and their supporters. Attacks on Hindu communities, religious figures and violence in the division.

In addition, the division faces a high risk of cyclone landfall during the cyclone season from April to May as well as October. A lack of comprehensive natural disaster preparedness programme and swift emergency response capability increase the risk.

Category	Risk Rating
Security	MODERATE - HIGH 3.75
Conflict	HIGH 4.00
Criminality	MODERATE - HIGH 3.50
Terrorism	MODERATE - HIGH 3.50
Unrest	MODERATE - HIGH 3.50
Environmental	MODERATE 3.25
Climatic	MODERATE - HIGH 3.75
Manmade	LOW 2.25
Seismic	MODERATE 3.00
Storm Systems	MODERATE - HIGH 3.75

Granular insights for better decision-making

We grade the severity of risks in 0.25 increments, allowing for more granular assessments that are reflective of the real world. *RiskMonitor Pro* ensures you have better visibility and can make more informed decisions than ever before.

Keep travellers safe wherever they are

Our team sends tens of thousands of alerts each year and you can tailor these to regions of interest or browse historic alerts by country and category. Our alerts are widely considered to be among the quickest on the market and arrive in your inbox as soon as events unfold, keeping your travellers in the loop so they can stay out of harm's way.

Easy to set up and use

RiskMonitor Pro is incredibly easy to set up and start using. We can create an account and get you logged in on the same day you subscribe - giving you instant access to our expert global intelligence. You can also download the phone or tablet app and use *RiskMonitor Pro* on the go.

Budget friendly

As the base module *GlobalRiskManager™* platform, *RiskMonitor Pro* provides a lot of intelligence at budget-friendly prices. Costs decrease as you purchase more licenses, offering scalable savings in bulk, while inclusive analyst time and global travel intelligence could further save your organisation thousands of pounds.

Futureproof tech

We've made significant investments into *RiskMonitor Pro* to ensure that it is at the very cutting-edge of risk monitoring technology. It's not only user-friendly, but also futureproof. So you won't have to worry about upgrading it in the future.
